

## **PATENT**

### **THERAPEUTIC USE** **OF LIPIDS EXTRACTED FROM MOTHER OF PEARL**

**SIERA SA**

### **ABSTRACT**

The invention relates to the use of lipids extracted from the mother of pearl of mother-of-pearl molluscs, as a medicament, in particular in pathologies and traumas relating to a decrease in filaggrin activity and/or an increase in membrane transglutaminase activity. The invention also relates to pharmaceutical compositions containing same.
